

**Chicago Housing Authority
Board of Commissioners Public Session
March 20, 2012
CHA Main Office – 60 E. Van Buren**

	Name	Question/Comment	Response
1	Charles Price	This is about a contract that was awarded. The guy who got the contract for \$40 million of work at Cabrini. 90% of the people on his staff were Hispanic. I didn't see where he hired one resident under Section 3. A lot of people get rewarded over and over and do the same thing. It is not equitable, what is happening to public housing residents.	We believe the specific contract you are referencing is for Friedler Construction, for the renovation of Cabrini Homes. This \$25,033,903 contract had a commitment of 14 Section 3 hires. Friedler exceeded this commitment with 26 Section 3 hires. Qualification for a Section 3 hire is not dependent on race.
2	William Lawrence Scott	I would like to speak about senior engagement. I have attended more meetings since the last Board meeting. I want to salute the CEO for the 2.0 input meetings. I would also like to advocate on behalf of seniors and I would like seniors to become more involved with technology. Seniors could start the morning with reports to their families. This could be the start of health awareness for seniors. I look forward to continuing work with Donna Dixon, who is on the front lines.	Resident Service Coordinators (RSC) are in all senior buildings and their focus and responsibility is to improve the quality of life for senior residents. In addition, RSCs will work with resident leadership to provide additional services and activities if residents show interest.
